### Objective

---

To enhance my professional skills, capabilities and knowledge in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

### Skills

---

- Programing languages: Python
- Databases: MySql, Postgresql
- Mobile application development: React Native

### Experience

---

- **Tamil Nadu Skill development cooperation** 1/3/23 - present  
Intern  
Working with backend development of "Naan Mudhalvan" portal.  
**Tools used:** django framework, postgresql database.

### Projects

---

- **1)JobSimply:**  
This application is made using **React native (expo)**. It allows users to find part time one day jobs that are posted by other users who are on the same location/area.  
**Tools used:** React native (expo), Firebase
- **2)Water Quality Analysis:**  
This project is made using Python. I have used the dataset to visualise water potability based on each features and analyse based on those features.  
**Tools used:** Jupyter notebook, Python libraries such as Seaborn, matplotlib, numpy, pandas
- **3)Alumni-Student Portal(currently working):**  
This project is being made for my department (IST, Anna University). I'm using **Django** for backend, **html,css** and **js** for frontend. This project is intended to bridge the gap between our department alumni and students in a way that alumni could offer job opportunities to students.

### Education

---

- **College of engineering, Anna University** 2023  
MCA  
7.088
- **DG Vaishnav college** 2021
